The Tillmanites' Triumph. The Tillmanites have won a great vic fory in the South Carolina registration case which was decided by the United States Circuit Court of Appeals on Tues

The course of Governor Evans in refusing to call an extra session of the Legislature to amend the registratio laws to conform to Judge Goff's views has been vindicated. Better than all for the Tillmanites, they now have the sympathy of many persons who have heretofore not been in touch with them while those Democrats who appealed against their State to Judge Goff find themselves "in a hole," so to speak.

Altogether, tooking at the thing from a point of view in Virginia and in the light of the court's decision, the injune tion proceedings were bad, very bad politics, for the anti-Tilmanites.

In the registration matter, Judge Goff has undertaken to rule South Carolina as Judge Bond used to try to rule Virginia about public debt matters. What amazes us here very much is that any South Carolina Democrat should have counted nanced an appeal to Judge Goff to step in and overthrow a very considerable part of the machinery of the State Gov ernment. Doubtless there are phases of the South Carolina situation which we do not thoroughly understand; but it at least seems clear that those who invoked Coff's aid have got nothing thereby, expept whatever credit, or discredit, attaches to an appeal to a Federal judge to "down" a State administration.

The opinion of Judge Hughes in this South Carolina case is very readable and Instructive. Its judicial calmness does not prevent the public from concluding before them was ridiculously trivial. The der is that Judge Goff, who is said to be a good lawyer, could have allowed its faults to escape his eye. The appellate court thought Judge Goff's injunction could such an injunction have stood long. and those at whom it was levelled must | States. now regard it as a godsend to their cause, as it enabled them to enlist a great deal of State feeling in their favor. The effect has been, and will continue to pe that they will avail them- of Virginia of Valentine's bust of Proclives of the opportunity now before them to harmonize all party differences, and make the Democratic party of South Carolina acceptable to all of the whites of that State.

## Virginia's Gold Brick.

It appears that Smith alias Parker alias | ful and vigorous diction, in which the "the gold-brick" man, "shoved" a gold brick off on the State of Virginia, as well as upon Mr. Withers, of Gloucester county. Not only was Virginia and the city of Richmond and the county of Henrico brought out in the marble, worthy of besses to testify against him, but the to testify the appreciation of Professor Btate has had to pay the expense of nesses who were summoned before the various judges to testify in the Smith a bill which provides for the expenditure habeas corpus cases. Not wholly in vain will Smith alia Parker have left this Commonwealth a gold brick to hold, if his case should receive the legislative attention that it de serves, and eventuate in reform in our criminal laws. At present our laws give The odds against the conviction of them are too great. The influence of money is being felt as never before.

EX-GOV. CAMPBELL'S VIEWS.

He Could Not Favor Free Silver Coinage by This Country Alone. COLUMBUS, O., June 11.-Ex-Governo lames E. Campbell was in this city to day, and in an interview said; "I am not a candidate for Governor, and if the nomination were offered 'ne on a silver platter I would not accept it. If there is any office on earth I want less than the governorship, it is that of United States

emorship, it is that of United States Senator."

When asked as to his views on the money question the ex-Governor said; "I am against gilver monometallism, and I am against gold monometallism as well. I should favor free silver, but not at the present ratio, unless there should be an international agreement. At the same time I favor free colnage at a proper ratio, and a liberal treatment of the two metals. The Democratic party ought to place itself squarely with both feet, and all other parts of its anatomy, on the Monroe doctrine and every other doctrine that recognizes the United States as the greatest country on the globe. On that issue there should be and certainty will be no difference of opinion in the party. "If the party sticks together this year we have a very good show in this State—a fighting chance, anyway. I believe that we have a better chance, however, to carry the Legislature than to elect our candidate for Governor, aithough it looks to me as if we ought to carry the whole to me as if we ought to carry the who ticket."
